DATE MAILED:

**Please find below and/or attached an Office communication concerning this application or proceeding.**

**Commissioner for Patents**

In response to Applicant's phone call, it was determined that the IDS filed 13 November 2006 had not been considered. When the application was up for action, the IDS was blank. It was later discovered that the form was filed electronically, and due to a problem at the PTO, the data which was entered on the form was not being displayed on the form.

The information is now in the system and appearing on the form. The reference on the IDS has been considered and does not raise any new issues of patentability with regard to anticipation or obviousness. Any confusion regarding this matter is regretted. A copy of the initialed and signed IDS is attached to this correspondence.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christine J. Saoud whose telephone number is 571-272-0891. The examiner can normally be reached on Monday-Friday, 6AM-2PM. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Manjunath Rao can be reached on 571-272-0939. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
